Plan It Piqua – Status Report and 2010 Work Plan

Chris Schmiesing handed out a copy of the Implementation Progress Report, and gave a brief overview of the various comprehensive goals staff will focus on in 2010.

Several questions were asked concerning the progress if any on the Zollinger Building, and the mixed housing use that was approved on R.M. Davis Parkway earlier in the year. Mr. Schmiesing explained he has been in contact with the proposed purchaser of the Zollinger building and his plans are to still move forward and he hopes to get back with the city sometime in January or February. Mr. Schmiesing reported the proposed housing project on R. M. Davis Parkway failed to receive funding from the State of Ohio and is essentially dead.

There was discussion of the changing of the traffic light to a four-way stop at Wayne and High/Market streets and how it has affected the pedestrian movements at this location. Mr. Schmiesing noted that the comments received have been overwhelmingly positive and that the pedestrian concern is something that will be addressed with modifications to the curb lines at such time funding becomes available.

Mr. Schmiesing commented that the Development Office will also be very active in supporting the 2010 Census effort and noted that federal funding dollars channeled to the community are directly tied to the census count. Thus, it is very important to get an accurate count when taking the Census, said Mr. Schmiesing. A Complete Count Committee is being formed and the kickoff meeting will be held January 26th to explain what the census count is and why it is so important. Mr. Oda offered a room at the Piqua Library for any census meetings if needed.

Mr. Schmiesing noted that the presentation merely highlights the key activities staff will be working on in 2010.
Mrs. Franz commented on the resistance to the possible annexation of land recently presented to the City Commission. Mr. Schmiesing stated that some of the concerns relate to misinformation suggested about the short term and long term fiscal impact to the city if the land is annexed. Mr. Schmiesing noted that staff is preparing a fiscal impact analysis that will be used to better inform the City Commission and the community concerning the benefits to approving the annexation.

**Adopt 2010 Meeting Schedule**

Mr. Schmiesing noted there are two dates the Planning Commission would have to meet early due to the Piqua City Commission Meetings being held the same evening due to the Holidays. Mr. Schmiesing also noted that there has been discussion among the City Commissioners about moving the City Commission meeting to Tuesdays, and that if this were to come to fruition the Planning Commission meeting time and/or day may need to be modified. There was a brief discussion concerning the possible date and time for the Planning Commission Meetings, but nothing was changed at this time.

Moved by Mr. Oda, seconded by Mr. Taylor to adopt the 2010 Piqua City Planning Commission Meeting Schedule as provided. Voice vote, Mr. Oda, Aye; Mr. Bubp, Aye; Mr. Taylor, Aye; Mrs. Franz, Aye; and Mr. Spollman, Aye. Nay, None. Motion resulted in a 5-0 voice vote to adopt the 2010 Piqua City Planning Commission Meeting Schedule as provided.

**Membership Review**

Mr. Schmiesing stated the terms of the Planning Commission seat held by Jim Oda and Mike Taylor will be expiring in March of 2010 and noted that if they would like to be considered to fill the next five-year term they would need to complete an application and turn it in by the first of February to the City Managers Office.

**Monthly Report**

Mr. Schmiesing provided an update to the Planning Commission on legislative items, planning activities, permit issuances and other items of interest to the Planning Commission that occurred over the previous two months.

Mr. Schmiesing stated next month Bill Murphy Assistant City Manager/Economic Development Director will be in attendance to give a brief overview of the Economic Development 2010 Work Plan.

Mr. Schmiesing also invited the Planning Commission to attend a public participation meeting is scheduled for February 11, 2010 at 6:00 P.M. to discuss the REDevelopment Opportunities Plan (REDO).

**ADJOURNMENT**

With no further business to conduct it was moved and seconded that the regular meeting be adjourned. With all those present in favor the regular meeting was adjourned at 6:55 p.m.
WHEREAS, the Planning Commission has submitted a request to amend the zoning chapter of the codified ordinances to incorporate provisions relating to Swimming Pools, Spas, and Hot Tubs; and,

Issues

Location – Current code provisions define a swimming pool as an accessory structure, and an accessory structure as any structure detached from the principal building on the same lot. This results in swimming pools not being permissible on lots that do not include a principal structure when, in some instances, this may not be objectionable.

Absence of Standards – The recent past removal of swimming pool, spa, and hot tub standards from the Residential Building Code of Ohio resulted in an absence of code provisions applicable to location, setback, safety and screening standards applicable to this type of use. Additionally, the Property Maintenance Code currently describes a requirement concerning the maintenance of a safety enclosure around a swimming pool, spa, or hot tub. However, the code sections applicable at the time the structure is constructed/installed are silent on the safety enclosure requirement.

Objective

The objective of this amendment is to update the zoning code provisions to include location, setback, safety enclosure, and screening standards for swimming pools, spas, and hot tubs. The amendment also aims to establish congruency between the codes applicable at the time of development (health, building, and zoning) and those applicable post-development (property maintenance and health).

Principles

A swimming pool, spa, or hot tub should be allowed to exist as an accessory structure on a lot adjacent to the principal structure to which it is accessory when the swimming pool, spa, or hot tub can exist under such circumstances without becoming an attractive nuisance within the neighborhood concerned. Code provisions pertaining to swimming pools, spas, and hot tubs should make a distinction between a private residential swimming pool, spa, or hot tub and a public swimming pool, spa, or hot tub; and, provide criteria clearly defining under what circumstances the structure is permissible and the minimum development standards necessary to protect the health, safety, and general welfare of the surrounding property interest and the entire community.

Code Amendments

The following exhibit details the code amendments necessary to address the aforementioned issues in a manner that is consistent with the objective and principles outlined. The proposed text insertions are in bold print and underlined, while a strikethrough line indicates the existing text that is to be deleted.
