PROJECT DETAILS

This shall be an agreement with the city of Peoria for the joint use of trenches for the relocation of underground power and communication lines. The contractor will be responsible for digging, placing, and removing the utility lines. The contractor will need to coordinate where a utility line travels from one trench to another.

PREVAILING WAGES WILL BE PAID.

WORK MUST BE COMPLETED BY JUNE 1, 2018

MIDWAGE OF TRAFFIC

The contractor shall be responsible for maintaining the traffic as per the guidelines. The plan shall be submitted to the engineering department for approval prior to the start of any work.

PERMITS FOR STREET CLOSURES/BLOCK MAY NEED TO BE SECURED FROM THE ENGINEERING DEPARTMENT PRIOR TO STARTING ANY WORK.

COORDINATE WITH UTILITIES

Utilities provided by the city of Peoria.

COORDINATION WITH UTILITIES

Some of the existing underground utilities are shown on the drawings provided. These should not be considered exact locations, and there could be other utilities not shown. The contractor shall provide protection service for located utilities. The contractor will be responsible for the protection of the utility property and services. No separate payment shall be made for the contractor to coordinate with utility companies.

CONSTRUCTION NOTICE

Activities adjacent to this project may be affected by construction noise. In order to minimize any adverse construction noise impact, the contractor will be required to operate power-driven construction-type devices between the hours of 7 am and 7 pm Monday through Saturday. No work is to be done on Sunday unless special permission is granted.

WORK LIMITS

The work limits shown on these plans are for the issuance of the installation and operation of all work zone traffic control and work zone traffic control devices required by these plans.

CROSSINGS AND CONNECTIONS TO EXISTING SEWER AND UTILITIES

If it is determined that the proposed project will intersect an existing sewer or underground utility, the contractor shall notify the engineer and all affected parties. The engineer shall recommend the proper procedure to be followed. The contractor shall pay for the removal and reinstallation of any affected utility, including the cost of the affected work.

ABANDONED UTILITIES

The contractor shall be responsible for the removal and proper disposal of any abandoned utility facilities, if any. The cost of the abandoned utility shall be included in the price of the affected work.
