The likelihood that certain areas contain lead service lines is based on approximate dates of construction during development. Boundaries were delineated using a "City of Piqua annexation map" (Revised June 1, 2005), information from the Miami County Auditor, and interviews with City of Piqua officials. More information is contained in the narrative that accompanies this map. Effective dates identified by parcel date, and the Piqua City limits shown on this map correspond with the City of Piqua and Miami County.
