

## SANITARY SEWER REPLACEMENT PROJECT

The Sanitary Sewer Replacement Project consists of installing new sanitary main, with service laterals, in the alley north of Park Avenue from Washington Avenue to east of Virginia Street. The sanitary main in the alleys between 1100 blocks of Lincoln Street & Virginia Street and just north of 900 block of Maple Street will also be replaced. As part of the project, the Madison Avenue storm main from Park Avenue to Camp Street will also be replaced.

The alleys will be closed Monday through Friday 7:00 AM to 5:00 PM, while the work is being completed. The sewers will be replaced in the summer and fall of 2021, with the alleys being repaved in 2022.
