

**REQUEST FOR PROPOSAL #1316  
FOR  
INCOME TAX SOFTWARE**

**CITY OF PIQUA, OHIO**

3/25/14 Answers to questions

1. What kind of hardware will the software be installed on? *Windows based server.*
2. What version of SQL is currently being used? *We would want 2008 R2 or 2012.*
3. Who is your current tax software vendor? What application are you using? *Homegrown AS400 software.*
4. How do you see the data conversion taking place? *We have an internal AS400 programmer that can assist with preparing data conversion files as needed.*
5. For your document management what format do you use? *Our current system is a manual paper based system.*
